

ABOUT US

Grace Hill Neighborhood Health Centers, Inc. (GHNHC) has been enabling healthy, productive lives for more than 100 years. We were formed as a 501(c)(3) non-profit corporation, and later became a federally qualified health center. GHNHC is accredited through the prestigious Joint Commission.

OUR SERVICES

Trusted health care is provided by well-trained and dedicated professionals at each of our locations. These providers, working alongside our other dedicated staff and volunteers at GHNHC, have received their training and certifications from some of the best programs in the nation.

Services include primary medical and dental care, podiatry, OB/GYN, pediatrics, internal medicine, mental health, pharmacy, and other specialties.

Call for an appointment at (314) 814-8700.

CO-PAYS

*Homeless patients wishing to be seen in one of GHNHC's health centers with no co-pay must bring proof of income. Minimal co-pays may apply.

*Patients seen in a homeless shelter by a Grace Hill volunteer provider are not charged a co-pay.

*Patients in the Grace Hill Respite Care Program are not charged a co-pay for prescriptions.

OUR MISSION

To serve our neighbors by providing high quality health care and exceptional service, while promoting healthy lifestyles.

CHILDREN'S DEVELOPMENTAL CENTER

Our Goal

The CDC seeks to improve social, developmental, mental health, and general health outcomes for children, from infancy to high school.

We believe in a partnership between health professionals, the child, the family, and the school to promote the healthy development of each and every child we serve.

Team of Professionals

The CDC implements a multi-modal management approach. What our team of professionals consists of:

- ~ Developmental Pediatrician
- ~ Pediatric Neurologist
- ~ Child and Adolescent Psychiatrist
- ~ Child Psychologists
- ~ Licensed Clinical Social Workers
- ~ Collaboration with St. Louis Children's Hospital, Washington University School of Medicine, and the child's pediatrician.

Services Provided

To ensure early recognition and intervention for specific neurological and/or behavioral or emotional issues, the CDC provides the following services:

- ~ Neurological Examinations
- ~ Developmental Assessments
- ~ Psychological Evaluations
- ~ Psychosocial Assessments
- ~ Individual and Family Counseling
- ~ Case Management
- ~ Resource Development and Linkages
- ~ Management of Neurological and Psychiatric Conditions (Including Pharmacologic treatment)
- ~ Initial assessment process usually occurs within 48 hours of referral

Our CDC Mission

Grace Hill's Children's Developmental Center (CDC) was established in 1996. The CDC provides a team of specialists to evaluate and treat the medical, psychological, and

social needs of the child. Because each child's world involves home and school, the CDC works with both parents and the school system to help manage developmental, behavioral or emotional problems that may be affecting the child. The CDC provides individualized assessments and treatment, which may include individual, family, and/or group therapy.

Typical issues seen at the CDC

Below is a list of behaviors that parents describe as causing them the most difficulty:

- ~ She/he can't focus; is always on the go
- ~ Teacher says student is behind in his/her work
- ~ Is aggressive and very physical
- ~ Is smart, but still has school problems
- ~ Cries a lot, and seems to be very moody
- ~ Always has to have the last word
- ~ Doesn't seem to listen
- ~ Doesn't talk and/or has speech problems
- ~ Child is a slow learner
- ~ Has difficulty getting along with other kids

Diagnoses Managed at CDC

- ~ Neurological Disorders
- ~ Global Developmental Delay/Mental Retardation
- ~ Pervasive Developmental Disorders and Autism
- ~ Language and Learning Disorders
- ~ ADHD, Oppositional or Aggressive Behaviors
- ~ Anxiety and Mood Disorders

Legal Assistance

The CDC works in collaboration with Legal Services of Eastern Missouri – a medical-legal collaboration to assist patients and families with basic civil legal problems that affect a child's health. Issues like housing, education, guardianship, and domestic violence are a few of the areas.

Contact Information

Please consider Grace Hill's CDC as an additional referral source for neurological, developmental, and behavioral health evaluations and follow-up consultation.
