

ABOUT US

Grace Hill Neighborhood Health Centers, Inc. (GHNHC) has been enabling healthy, productive lives for more than 100 years. We are a non-profit, federally qualified health center. GHNHC is accredited through the prestigious Joint Commission.

OUR SERVICES

Trusted health care is provided by well-trained and dedicated professionals at each of our locations. These providers, working alongside our other dedicated staff and volunteers, have received their training and certifications from some of the best programs in the nation.

Services include primary medical and dental care, podiatry, OB/GYN, pediatrics, internal medicine, behavioral health, pharmacy, and other specialties. We also provide transportation within the St. Louis city limits.

Call for an appointment at (314) 814-8700.

ACCEPTED INSURANCES & OUR SLIDING FEE SCALE

*GHNHC offers a sliding fee scale that is based on household income. Patients who apply and are eligible will pay a reduced fee. Proof of income is required. Co-pay amounts are due at the time of service.

*Homeless patients responsible for co-pay must bring acceptable proof of income.

*We are a Medicare/Medicaid provider, and some commercial plans are accepted.

OUR MISSION

To serve our neighbors by providing high quality health care and exceptional service, while promoting healthy lifestyles.

What is W.I.C.

W.I.C. is a supplemental food and Nutrition program benefiting Pregnant, Breastfeeding, and Post Partum women, infants and children.

WIC is a U.S. Department of Agriculture (USDA) program, usually administered by the State Department of Health and Senior Services.

The National W.I.C. program was established in 1972 when a National Nutritional Survey found anemia and inadequate growth to be common among American Families. These conditions can adversely affect brain size and cognitive ability.

W.I.C.'s mission

W.I.C.'s primary mission is to give our most vulnerable children the best possible start by providing nutrition education and healthy food during the critical stages of fetal and childhood development and to achieve optimal nutritional status for children before they start school.

Our Program serves more than 3,800 clients monthly.

Early prenatal care helps make babies healthier.

What are the benefits of W.I.C.

- Providing nutritious W.I.C.-approved foods, such as cheese, milk, cereals, eggs, peanut butter, beans, juice, fruits, vegetables, whole-grain bread and much more.
- Helping women find prenatal care, health insurance, family planning options, and general medical care for the mother and child.
- Providing nutrition education to promote healthy eating and active living.
- Promoting and encouraging breast-feeding.
- Offering clients health and nutrition education from Registered Dietitians, Nutrition Education Counselors, and Breastfeeding Counseling.
